**TravAware™** is the innovation in a software application for the traveller, VIP, lone worker and valued family members. It is accessible on Blackberry, iPhone, Android or any web enabled device.

**TravAware™** provides a proactive, fast time reporting tool which in 4 very easy steps deals with any medical or fire emergency, terrorist threat, pandemic issues, hostage and kidnap, hostile reconnaissance, workplace incidents, intrusions, suspicious behavior or any other incident when a threat or injury are involved.

**TravAware™** helps to mitigate and deal with the risks associated with these types of incidents, providing your people with a level of confidence that someone is able to assist and respond if required 24/7. This is especially important to people who are in high risk roles, or who are travelling in unfamiliar or high risk areas. **TravAware™** is simple to use and highly effective.

#### How does it work?

The **TravAware™** software is accessible, fully loaded and ready to go from the front screen of your chosen device.

To activate a report simply select the **TravAware™** icon. It's simple, quick and easy to navigate around to request help. If the situation demands immediate assistance, sending a quick alert to a specified group of responders will enable them to provide support and help to you in the most efficient and appropriate manner.
