Leadership - in crisis & beyond

Fay Tennet was on duty at Parliament the day of the Terrorist Attack. This event is an opportunity to understand what happens at the sharp end of a crisis of a terrorist attack. How an organisation reacts at the time, during initial recovery and the days, weeks, months and years following as business gets back to usual whilst managing ongoing enquiries and reviews. How do you make sure your own organisation and the Board are ready? There will an opportunity for questions and discussion.
